EXPERIENCE

Business Transformation and ERM Co-op | Toyota Credit Canada Inc. — Markham, ON

May 2026 – Present

- Review **500+ policies, SOPs**, and process maps to document **key controls, segregation of duties (SoD), approval authorities**, and gaps for new-system implementation. Create narrated PowerPoint training presentation covering departmental PnPs
- Review SOX governance matrix and document SoD requirements to support governance and internal control assessments.
- Meet with department managers and VPs to clarify discrepancies between current practices and policies/SOPs, supporting documentation updates and accurate approval authority matrix.
- Verify Alfa costing model against contract terms, checking Excel formulas, CPI assumptions, annual uplift timing, and monthly fees across the 2026-2030 forecast.
- Collaborate with ERM stakeholders and subject-matter experts to document escalation processes and control descriptions.

Shift Leader | Chatime — Markham, ON

Aug 2026 – Present

- Oversee shift operations, coordinate workflow, and maintain food safety, store cleanliness, and SOP compliance.
- Replenish inventory and minimize food waste while supporting efficient service and customer satisfaction.

Tax Associate Co-op | TaxAssist Accountants — Cambridge, ON

Jan 2026 – Apr 2026

- Managed, prepared, and reviewed **300+ T1 personal tax files** from intake to filing using TaxCycle and TaxFolder
- Handled complex cases, including **self-employment, business income, rental income, moving expenses, employment expenses**, capital gains, and foreign asset reporting
- Consulted with clients on tax questions, missing documents, filing requirements, CRA data differences, and return outcomes
- Processed **catch-up bookkeeping for 4,000+ sales and expense transactions**, ensuring accurate categorization, documentation, and review readiness
- Trained student staff, reviewed work for accuracy, and organized **client folders, source documents, storage, and client data**
- Designed digital intake forms and standardized documentation workflows to improve client data collection, reduce missing-information follow-ups, and support review-ready tax files

Stores Manager | CoCo Bubble Tea — Waterloo & Cambridge, ON

Nov 2022 – Jan 2026

- Managed **two high-volume retail locations** (200–500 transactions per day per store), overseeing cash handling, reporting accuracy, inventory, and SOP compliance
- Supported **end-to-end store launch**: equipment setup & troubleshooting, storage layout, and opening readiness
- Hired, trained, scheduled, and assessed **25+ employees**, supporting productivity, labour cost control, and service quality
- Managed inventory ordering, waste control, and 200+ unit bulk orders while balancing cost efficiency, service continuity, and quality control
- Ensured compliance with food safety requirements, health inspection standards, and company SOPs

EDUCATION

Bachelor of Mathematics (Co-op, Honours) | University of Waterloo — Waterloo, ON

Sep 2022 – Present

Major in **Financial Analysis & Risk Management** — CFA Specialization Designation

- President's Scholarship Recipient
- Relevant Courses: Financial Markets, Risk Management, Actuarial Science, Optimization, Statistics
- Professional Development: **Technical Report Writing, Project Management, Professional Communication, Professional Responsibility in Computing** (software ethics, licensing, copyright, and quality assurance)

PROJECTS

Marketing Plan Project Director (Wealthsimple Digital Wallet) — MGMT 244: Principle of Marketing

- Led a 6-member marketing project team by setting direction, allocating work, managing deadlines, reviewing deliverables, solving unexpected problems, and guiding strategic decision across research, analysis, exhibits, and final report submission.
- Analysed the company situation, innovated the product development idea, and built an [interactive prototype](#) for an AI-powered Wealthsimple Digital Wallet.

Equity Price Modeling (Markov Chains) — STAT 334: Probability Models for Business and Accounting

- Modeled Apple and Microsoft stock price movements using **Markov chain transition matrices** to estimate expected returns, risk patterns, and investment implications

Accuracy Business Cup — Semi-Finalist

- Conducted **financial statement, ratio, and competitor analysis** on Accor to deliver an **equity recommendation report** under tight competition deadlines

Financial Investment Coach | Azure & Artificial Intelligence Fundamentals — Waterloo Experience (WE) Accelerate Program

- Completed Workplace Hazardous Materials Information Systems (**WHMIS**) and professional workplace training
- Applied **financial analytics, data interpretation, and structured problem-solving** to design an AI-based financial recommendation tool and present insights to technical and non-technical stakeholders in a team environment

Certificate of Innovation — “The Zero Experience”

- Researched a social issue and developed an actionable proposal through structured analysis, project planning, and team collaboration
